WA5YWC/R Summary for both August and September

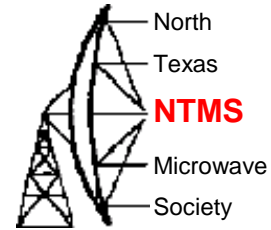

- Bob activated a total of 8 grids EM13, EM12, EM11, EM14, EM04, DM94, DM93, EM03
- Bob had 68 QSOs with 9 unique call signs
- Bob worked W5LUA 27 times, AA5C 16 times, WQ5S/R 11 times, W5AFY 7 times, K5SOP/R & AA5AM twice, K5LLL, K8ZR/R & N5BRG/R once
- His best DX was 369 km from DM94 to W5LUA
- Job well done for a “Texas” rover !
- Bob turned in his best score ever with 11,292 points.....Unfortunately his last entry

WA5YWC/R to WQ5S/R QSOs

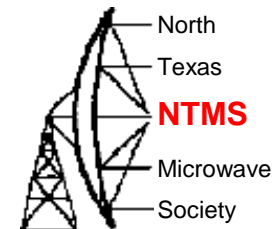

- Bob had the most number of rover to rover contacts with Brad WQ5S at 11 QSOs.
- Best DX between the two stations was 149 km or about 92 miles
- Pretty good considering that both stations would have to have a good “look” towards each other and still be able to work other stations on the band.
- Coordination is everything.....

Liaison

- 144.260 MHz was under utilized
- Cell phone was number 1 means of communication
- 902 FM was used with some degree of success allowing a link to Austin and WA5YWC out in West Texas.
