- The purpose of this survey is to judge the current interest's of NTMS members for 2025.
- The identity of the responders was kept hidden.
- Total of 27 Responses.

Responses

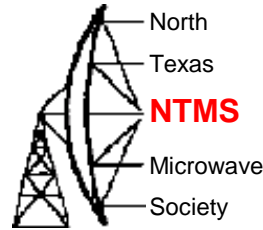

In 2025 what topics would you like to see more of?

27 responses

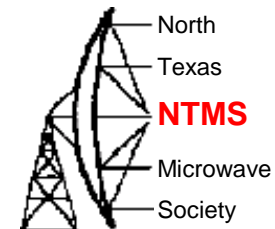

Custom Responses

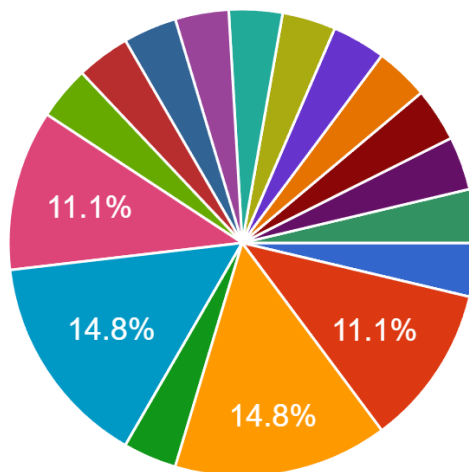

- Tutorials: for example Basics of antenna design using EZNEC or Designing PCBs using KiCAD, etc.
- I would be very interested in learning more about RF PCB design in free software such as Kicad and or RF circuit design
- A ELI5 guide for microwave would be tremendously helpful
- Microwave propagation/ use of WSJT on microwaves/ 24Ghz beacon construction
- How to bring in new operators

Results Breakdown

- 1 - Technical Presentations (Deep Dives into MW topics)
- 3 - Rover Activities (VHF and above)
- 4 - Grid Expeditions
- 1 - Basics of Microwave
- 0 - Building Microwave Equipment
- 4 - Software Defined Radio Systems (GNU Radio)
- 10 - Keep it the same?

Custom Responses

- Presentations that are too lengthy
- We just need more volunteers to speak, It was always hard beating the bushes so to speak. fortunately with zoom, this opens up a lot of new possibilities. I can help you coral some good speakers outside the area.
- I don't want to see less of these topics
