NTMS Budget & Dues

- Total \$617 / \$20 dues > 31 members min
- Does not include meeting room space and ARRL Spectrum Defense Fund donations
- ARRL SDF donation is approx. \$300 so our total operating expenses are over \$900 per year.
- This takes 45 supporting club members to equal our operating expense *just to stay flush*.
- Reality is: our account has averaged a \$500 drop every year in the past 5 years.
- The math seems to indicate that we have 20 supporting club members on annual average.

NTMS Budget & Dues

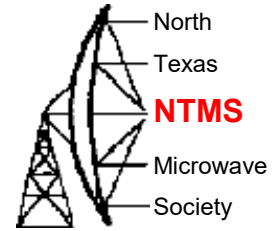

- Like all things there is a finite amount of time we can operate at the current drift down before activities of the club will be affected.
 - Zoom Meeting \$160/yr

Free information?

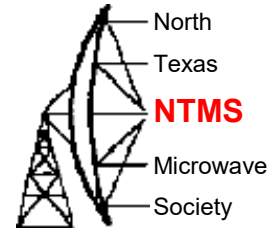

- Is accurate and reliable information ever really free?
- No, some price was paid to obtain, maintain and archive the information. NTMS information is ad-free *but came at a cost.*
 - Combined experience of IEEE members and RF Engineers
 - Operational skills gained over decades of time
- The next gen of microwave operators are among us today. For our mission to succeed will depend on them and the persistence of NTMS resources.
- We will be socializing the need for member support through email and other messaging.

Next steps

- Place a Donate button on home page with the phrase “If you like what we are doing, please donate.” *This is in process of being configured.*
- Irving club provides “Micro Grants”. *Old program*
- A Grant would be suitable to offset or pay for an NTMS large project. *ARRL grant (need volunteer)*
 - Multi-band beacon (approx. \$2000 invested now)
 - Repair and modernization of other beacons
- Raise money in other ways besides estate processing.
